Summary

B.Tech Information Technology student (2022–2026) specializing in Full-Stack Development & Data Structures and Algorithms. Proficient in building scalable web applications using React.js, Node.js, and MongoDB, with hands-on experience through internships in UI/UX, product development, and AI-driven solutions. Strong problem-solving skills with a focus on performance, scalability, and user-centric design.

Technical Skills

Programming Languages: C++, JavaScript, SQL

Frontend : HTML, CSS, React.js, Bootstrap

Backend : Node.js, Express.js, REST APIs, JWT Authentication

Databases : MongoDB, MySQL

Developer Tools : Git, GitHub, Version Control, VS Code, Postman

Core Concepts : Data Structures & Algorithms, Time & Space Complexity

Projects

Uniplay | *React, Node.js, Express, MongoDB, REST APIs, Socket.IO, JWT Auth, Postman* | [GitHub](#) | [Live](#)

- Built a scalable full-stack MERN sports platform for event management, supporting 100+ users with efficient workflows.
- Developed responsive React-based UI with secure authentication (OTP, JWT) and role-based access control for seamless user experience.
- Designed and optimized REST APIs for event workflows and admin dashboard, ensuring smooth and efficient data handling.
- Tested and validated APIs using Postman, improving reliability, error handling, and overall system performance.

InterviewReady | *React, Node.js, Express, MongoDB, JWT, Gemini AI, REST APIs* | [GitHub](#) | [Live](#)

- Built an AI-powered MERN platform that generates personalized mock interview questions from a candidate's resume, target job role, and topic.
- Engineered secure JWT-based authentication with OTP email verification and refresh-token session handling for persistent login.
- Integrated Gemini AI to parse resumes, extract skills and experience, and deliver real-time interview feedback and performance evaluation.

Experience

Web Development Intern (AI-Enhanced Applications) | *JRS Innovation Inc, Jaipur* **05/2025 – 07/2025**

- Built full-stack web applications with AI integrations using JavaScript, PHP, and SQL.
- Optimized performance and SEO, improving scores from 34→68 (performance) and 76→83 (SEO).
- Engineered a discussion forum with authentication, threaded discussions, and upvoting.
- Integrated AI moderation (Gemini API) to enhance content safety and user experience.
- Designed responsive, SEO-optimized, and multilingual (English-Spanish) web pages.

Intern | *STPS, Suratgarh* **05/2024 – 07/2024**

- Gained hands-on exposure to industrial IT systems, networking, and SCADA operations in a production environment.
- Assisted in database management and system monitoring to support plant operations.

Education

University Department, Rajasthan Technical University, Kota **10/2022 – 05/2026**

Bachelor of Technology in Information Technology CGPA: 7.87/10

Kota, Rajasthan

Karni Vidhya Niketan, Nangli Saledi Singh **07/2020 – 04/2021**

Higher Secondary Education Percentage: 93.60%
